Care that works for everyone, wherever they are - home, community or hospital.

FutureCare are very pleased to announce a series of online events where colleagues will be able to hear from FutureCare programme leaders about work underway and the anticipated benefits that will be delivered. Bringing together staff from partner organisations and from VCSE partners, the events will provide an opportunity to ask questions and put forward ideas to improve services.

If you would like to come along, please register your interest on the Eventbrite links that are in the titles of the events below. Please also pass on details to team members and other stakeholders who are also welcome to attend.
