Following this session, what would you be interested in learning more about?

(1/3)

0 2 7

- What can the VCS do to engage and support further
 - How can VCS engagement further support these initiatives
 - How do you propose to use the Acute Sector in this and will there be any opportunity for Governors to be involved in the process
 - The details about how you are going to do this and involve service users. Are you proposing to establish a citizens panel to get the user voice. If so how will this work.
 - What has actually happened.
- This is all good intentions.
- I would be interested in understanding how you view working alongside Public Health could benefit and support plans for prevention (future care).
 - How health can work with young people's organisations to prevent ill health
 - How Livewell Dorset can be involved in conversations around INT
 - How will people and the VCSE be involved or able to influence integrated neighbourhood teams

- Both programmes. How can we stop duplication and over demand on vcs, or increased control of vcs by public sector.
- Regular updates
- Integrated Neighbourhood Teams and let nks to wider determinated esp. nature and the environment.
- Collaboration with arts development organisations, trauma related interpretation.
- How we can link our existing work into the int work - Dipps, day opps, developing our community offer in one place instead of duplicating
- Thriving communities and INT
- How the programmes work together.
- It is good to hear about INT speaking with language similar to transformation already happening
- Interesting work upcoming. Interested to find out more.
- Keeping informed about the programmes
- Exactly how the VCS can add

Following this session, what would you be interested in learning more about? (3/3)
